

NEXT LEVEL PERFORMANCE

All the incredible features of the classic ACCESS® Roll-Up Cover, now built to perform at a new "LEVEL".

SECURITY
Keeps cargo protected from outside elements including rain, snow, sun, wind and prying eyes.

NO NEED TO REMOVE
100%
BED USAGE

AUTOLATCH™
We have developed a patented system that automatically locks when closing cover. Best of all, the smooth action of the pull cord gives you an easy release when opening

TIGHT BITE™ CLAMPS
8 sturdy aircraft grade aluminum clamps secure your rails to the side of your truck. Specially cut "teeth" maintain a superior grip giving these clamps excellent strength.

XT-DIAL™
In our drive to make our designs better we took our patented EZ-Dial™ tension control system and gave it a large oversized grip. The easiest and most effective tension control system on the road just got better.

PREMIUM STORAGE
Building upon our popular Quick Clips, we have added a new cab guard design which not only secures the cover compactly, but also prevents it from rubbing against the cab.

NEW! ROLL-UP COVER + RACK COMBO

CHOOSE THE CLEARANCE THAT'S RIGHT FOR YOU

Available in low or high (above the cab) clearance, the ACCESS® Roll-Up Cover & Rack keeps your truck bed usable for other items. Choose the one that's right for you.

▲ HIGH CLEARANCE

Fasten long loads including ladders, lumber, canoes, etc. to the top of the high rack system. This system allows for long loads to extend above the top of the cab.

BUILT TO LAST

Long lasting, high strength extruded aluminum offers you superior performance and versatility in load carrying ability. This makes it perfect for all your job site materials during the week, and all your toys during the weekend. Dish it out, this system is ready...

ADJUSTABLE CROSSBARS

For the ultimate efficiency the rack can be easily adjusted forward and out of the way or removed in seconds allowing you full use of your truck bed when needed. They are also compatible with a variety of kits and accessories sold separately.

DOUBLE YOUR CAPACITY

Enjoy the benefits of a roll-up cover and a durable rack system as these products come together as a complete package. Combining these products greatly increase the capacity of your truck by providing additional levels of storage above and below the roll-up cover.

▲ LOW CLEARANCE

The Low Clearance system allows for easy ground level loading for bikes, hunting supplies, snowboards, or anything else that you may be hauling.
